

YIMBY 2019

Breaking Ground: Building Our Shared Future

2019 SPONSORSHIP LEVELS

Thank you for your interest in supporting the 2019 Buffalo YIMBY Festival.

On April 27, 2019, *Designing to Live Sustainably* presents the second annual **Buffalo YIMBY Festival**, providing a platform for individuals and groups involved in grassroots community organizations to gather; exchange ideas, experiences, skills and strategies; and collectively imagine our future city. YIMBY promotes the role of community groups as an integral force for positive and sustainable change in the Buffalo-Niagara Region.

In 2017, the inaugural YIMBY festival brought together over 300 participants and 70 community organizations for an engaging day of workshops, demonstrations, and idea sharing. YIMBY 2018 will celebrate **Breaking Ground: Building Our Shared Future** by transforming a vacant shopping center on Broadway Avenue into a vibrant community space for individuals and organizations to get to know each other, to share success stories and challenges, and to learn more about hands-on, simple actions to make our city better, one neighborhood at a time.

Designing to Live Sustainably (D2LS) strives to inspire the bioregional community to leverage its comparative advantages, optimizing the area's viability as climate change impacts our ecological, social, cultural, and economic health. D2LS believes that collective preparedness presents an opportunity for the Buffalo-Niagara region to THRIVE, not just survive in the face of impending climate change.
